

AGENDA FOR CALIBRATION ROUND-TABLE MEETING

1. Five minute reports on related topics from:
Ian Barton on the IR Round-table
Yoram Kaufman on the Atmospheric Correction Round-table
Jim Butler of Bruce Guenther on the Data Validation Round-table

2. What is the role of the EOS calibration scientist with respect to:

- a. Coordinating vicarious calibration activities between different VC groups nationally and internationally?
- b. Centralizing the evaluation (and weighting) of different techniques used by different groups?
- c. Arranging cross-comparison measurements between various groups to help in evaluating VC methods to meet the goal of 2 above?

Jim Butler

d. Depending on the responses to these questions, what is the recommended role for MCST?

Bruce Guenther

Related issues:

3. What important VC methods are at high risk due to funding problems?

4. How are VC results being included, as a function of time, in the final MODIS calibration coefficients? Bruce Guenther or Harry Montgomery

5. What is the likely role, if any, of CEOS in VC? Ian Barton

6. What is the status of the GSFC cal lab? Peter Abel
